Sir Syed Case Institute of Technology, Islamabad

Fall 2026

Assignment 01
CS2008 Visual Programming

Announced Date: October 19, 2026 Due Date: October 26, 2026 Total Marks = 10
Marks Obtained =

Instructor Name: Mr. Hamid Ashfaq

[CLO1, C2]
Consider there are different students in Sir Syed CASE Institute of Technology and by considering few students, student detail table has been given.

Q1) Identify which array is better for storing data of below table. i.e., use concept of multidimensional and jagged array for implementation.
Q2) Print data w.r.t arrays that you have implemented in your code.
Q3) Update the semester of students to (4, 6, 5). Apply the rule: If a student's semester is below 5, they should drop "Software Engineering" and "Data Structures" from their subject list.
Q4) What will be array transformation? Print final values.

Student Details Table

Name	Age	Semester	Subjects Offered		
Akbar	19	3	Visual Programming	Computer Networks	AI
Ahmed	20	5	Data Structures	Databases	Machine Learning
Ali	20	4	Software Engineering	Cyber Ethics	Visual Programming
